

LATTICE

HAVE A CONVERSATION WITH YOUR DATA

1 / 6

From Fragmented Manufacturing Systems to Trusted Operational Decisions

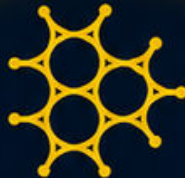

Lattice for Manufacturing

Unify manufacturing data into governed, reusable data products for faster decisions across operations, maintenance, quality, supply chain, and leadership.

FRAGMENTED SYSTEMS

Siloed data across
machines, plants, and
teams. Hard to access.
Hard to trust.

TRUSTED DATA PRODUCTS

Unified. Governed.
Reusable.
Ready for action.

OPERATIONAL OUTCOMES

Lower downtime, higher
quality, improve efficiency,
empower every
operational decision.

LATTICE

HAVE A CONVERSATION WITH YOUR DATA

2 / 6

Manufacturing does not lack data. It lacks connected, decision-ready data.

Critical signals sit across plants, machines,
people, quality, supply chain, and leadership.

**Plant
systems**

**Machine
telemetry**

**Quality
records**

**Maintenance
logs**

**Supply
chain data**

**Production
planning**

Fragmented data slows every decision.

What can Lattice for Manufacturing support?

One governed manufacturing data foundation across maintenance, quality, operations, supply chain, and leadership.

Predictive maintenance

Spot machine risk earlier and reduce unplanned downtime.

Quality & traceability

Create audit-ready evidence across batches, defects, and recalls.

Supply chain visibility

Unify supplier, inventory, and shipment data for faster response.

Production optimization

Connect demand, capacity, and throughput signals for better decisions.
